To Whome it My Conceren

I highly recommend Mr. **Abdulmajeed AL-Naam** for any professional or academic pursuit. As his professor at the University of Hail, I taught him "Ethics in Software Engineering" and "Software Project Management" (2024–2026).

Abdulmajeed is a distinguished student who earned an (A+) in both courses. He is diligent, analytical, and possesses a deep understanding of software engineering principles. Beyond his academic excellence, he is professional, courteous, and shows great potential for research and leadership.

I am confident he will be an asset to your organization or program. Please feel free to contact me for further details.

Prof. Amr Mohsen Jadi

Information and Computer Science Department,
University of Hail, Hail City, Kingdom of Saudi Arabia.
