To Whom It May Concern

I am pleased to recommend Mr. **Abdulmajeed Abdullah Alnaam** (Student ID: **202204545**), a student in the Department of Software Engineering at the University of Hail, who completed my course SENG 243: Programming Languages and Paradigms. Throughout the semester, **Abdulmajeed** demonstrated a solid understanding of programming concepts and the ability to engage with different programming paradigms effectively.

In the practical component of the course, **Abdulmajeed** showed good analytical skills and a structured approach to problem-solving. He was able to apply theoretical concepts such as paradigm differences and language design principles in his assignments with clarity and consistency. His work reflected careful thinking and a growing level of technical maturity.

Based on his performance and dedication, I am confident that **Abdulmajeed** will continue to develop successfully in academic or professional settings. I recommend him for opportunities in software development or further studies. Please feel free to contact me if additional information is required.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Abdulrahman Alshammari'.
